

HISTORIC TOURING CARS

Dear Nic,

Mid way through the season already and it's been great that most states have had a relatively COVID free interruption to their calendars, let's hope this continues!

There have been some great events with our category; on the support card at Tailem Bend, congrats to all that competed, it made for some great TV. Queensland has a big meeting coming up with a strong field of cars entered at Morgan Park and the Sydney guys recently competed in the HSRCA Sydney Classic which included a race on Saturday night, what a great spectacle that was.

Work continues at the AHTCA as we try and improve and evolve our category, we are keen to have and hear your opinion so please take the time to answer our question below, let us know what you need and or would like as competitors and we will do what we can to make Historic Touring Cars the most attractive and enjoyable category in club level motorsport!

Enjoy your racing,
The AHTCA Team.

Quick Question & Answer

How would you rate what the AHTCA is trying to do?

lowest [1](#) [2](#) [3](#) [4](#) [5](#) [6](#) [7](#) [8](#) [9](#) [10](#) highest

Signage on Vehicles

Competitors are reminded that markings on cars must adhere to [5th Category General Requirements](#). There has been a steady flow of minor, but illegal extras like:

- RIP
- Vale.....
- Racing for the kids
- Business names etc.
- Thank you to.....

Please do the right thing and remove any extra you might have. There's going to be extra attention paid to this. And we wouldn't want to see anyone get pinged for it

Minimum Weights...again

Some competitors really are keen to explore more, the minimum weights of cars. So we ask that Competitors send in their minimum weight of their vehicle together with certified/manufacture evidence.

You can send that information [to us here...](#)

A bit of action from around the country...

National Calendar(s)

The AHTCA have added most of the Group N events around the country to the national website. More will be added as they are confirmed.
