

HISTORIC TOURING CARS

G'day Nic,

Sadly here we are again talking about or being frustrated by a COVID interrupted race season. Start of the year was promising but sadly most on the East Coast have been impacted by either snap or extended lockdowns meaning fully prepared race cars are sitting idle and fully frustrated race drivers are losing their minds!

QLD meetings have been shuffled around, VIC meetings postponed and cancelled and in NSW all Historic meetings for 2021 are now cancelled including the Sydney Master Blast - Muscle Car Masters, let's hope the VIC guys get a run at Sandown, if not sooner, to our friends in SA, WA keep cutting laps and enjoy it and don't be afraid to share stories and updates to keep us all motivated.

Thoughts are with those that are doing it tough on the business or employment front, keep in touch with your race mates and don't forget there is plenty of good motorsport to be found on the likes of YouTube to give us all some form of fix. The AHTCA team has had a few topics which have been circulating with submissions presented to us now back with David Twigg for review and consideration by the Historic Committee (it's no longer a commission since MA restructured last year).

We have made steady progress with off track topics the last 18 months, we would have liked to achieve more that improves and influences our racing and category overall but thanks to COVID National calendars and events that support each others clubs have proven too difficult to tackle, let's hope borders are open and we can all travel and compete interstate again soon.

Enjoy your racing,
The AHTCA Team.

Signage on Vehicles

Last edition we reminded competitors that markings on cars must adhere to [5th Category General Requirements](#). There has been a steady flow of minor, but illegal extras.

There are other ways to show your supporters love. A-Frames tell a much better, more involved story, than a car going past at 150kph.

Please do the right thing and remove any extra you might have. Don't want to see anyone get pinged.

Don't forget to charge your Dorian

Another reminder that to keep your Dorian in its best condition, you should regularly charge it.

Cheaper than buying a new one!

National Calendar(s)

The AHTCA have added most of the Group N events around the country to the national website (Probably COVID out of date). More will be added as they are confirmed.
